(An Autonomous College & NAAC Accredited "A" Grade College)

Affiliated to IK Gujral Punjab Technical University, Jalandhar (Pb.)

Feedback analysis

The process of teaching and learning is incomplete without feedback. It assists the mentor in recognizing how well the students understand the subject matter that is being taught. This is a significant opportunity for teachers to improve their teaching methodologies, ultimately benefiting the students in the long term. The collection and evaluation of feedback from various stakeholders assist the institution in better understanding the needs of society and what other stakeholders expect from the institute.

In order to achieve this goal, the college has implemented the following feedback systems. The IQAC collects and analyses input received from all stakeholders, which is done through the feedback committee of the organization. After examining the information, comprehensive reports are generated and distributed to those responsible for their improvement. The report on the same will be posted on the college's website after it has been completed.
