### **REPORT ON FEEDBACK ANALYSIS & ACTION TAKEN**

**(2021-22)**

IQAC makes the most of every chance to solicit comments and suggestions from many stakeholders, including students, teachers, alumni, and employers. The feedback committee is the one responsible for carrying out this activity. It gathers and analyses feedback from different stakeholders before delivering a report on actions done to the appropriate bodies.

The purpose of this activity is to evaluate the impact of the institution's actions on the various stakeholders. The institution wishes to broaden its benefits in order to include all stakeholders.

The statistical tool is used to collect and analyse this feedback. The feedback committee takes additional action based on stakeholder feedback. The IQAC collects it and forwards it to the feedback committee, which makes decisions on numerous ideas made by stakeholders.

The feedback committee meets at the end of the semester to review the numerous ideas and create a report on activities taken. The action taken report will be provided to each member of the staff by the IQAC, who will also be given a copy of the same report. Data is compiled and analysed using statistical methods. It is forwarded to the institution's Head for consideration after data collection and analysis, and the development of a general action plan.

The Annual Feedback Action Taken Report will serve as the basis for the planning that will take place during the faculty meeting for the next academic year. In addition, meetings on a departmental level are held in order to execute and put the action plan into effect.

#### **Analysis Report On the Basis of Feedback Received From Alumni**

#### **Overall Feedback by Alumni:**

- ✓ The curriculum has to be modernized so that it can compete with current industry norms.
- ✓ Organize frequent meetings of alumni for the benefit of current and former students. Also, take advantage of the placement bonus.
- ✓ Encourage students to participate in research and projects.
- ✓ The practical applications of topics should be emphasised to students.
- ✓ Use the expertise of former students now working in industry, government, and other organizations.
- ✓ Encourage students to demonstrate and publish their research findings.
- ✓ Empower pupils with a spirit of invention and inspire them to take the entrepreneurial risk.

#### **Action Taken**

- ✓ The curriculum is updated on a regular basis to match industry requirements.
- ✓ The institute has taken into account the recommendation and report to organise an alumni meeting.
- ✓ The institute assists students with research projects, research paper presentations, and publication at various conferences.
