To commemorate the *Three Decades of Excellence in Pharmaceutical Education and Research* (1984 – 2014), the ISF College of Pharmacy proudly presents a new vista in the form of its in-house publication of monthly news, the ISFCP Newsletter. The quality and quantity of teaching and research supplemented with co-curricular and extra-curricular activities distinguish this leading institution from others in the region and also in the country. Our modest but enviable achievements are so voluminous that we find it difficult to highlight in a single publication and hence this monthly *Newsletter*. This very second *Newsletter* is dedicated to the International Conference on “Advances in Pharmaceutical Nanotechnology and Nanomedicine” to be held during 6-8 Feb. 2015 at I.S.F. College of Pharmacy, Moga, Punjab (India) and is being released at the inaugural event of the international conference.

I would like to place on record the enthusiasm and support from Mr Praveen Garg, Chairman of ISF College of Pharmacy, and the assistance from Mr Onkar Bedi and the overwhelming response of all the contributors to this Newsletter.

Prof. N.K.Jain
Director and Chief Editor
