License No. 5-Testing-Pb./30-10-2013

CERTIFICATE OF ANALYSIS
Form 39 (see rule 150-E (F))

Sample Name : Drinking Water	Sampling Point: ISFCP-DW-GF-04
Date of Sampling : 22.07.2023	Date of Competition of test: 22 nd & 28 th July, 2023
Submitted by: ISF College of Pharmacy, Ferozpur Road, Moga, Punjab 142 001	

RESULTS OF ANALYSIS

CHEMICAL ANALYSIS REPORT

Sr. No.	Test Parameter	Result	Standard Range (as per IS 10500)
1	pH	7.10	6.5-8.5
2	TDS	75	0-500 mg/l
3	Calcium	8.53	200 mg/l
4	Alkalinity	45 mg/l	0-200 mg/l
5	Hardness	Nil	0-300mg/l
6	Color	<1	2 CTU
7	Turbidity	<1	2 NTU
8	Magnesium	Not detected	100 mg/l
9	Chlorine	Not detected	0.5 mg/l
10	Sulphate	6.3	0-200 mg/l
11	Sodium	14.23	0-200mg/l
12	Potassium	8.23	0-200mg/l

MICROBIOLOGICAL ANALYSIS REPORT

S No	Test Parameter	Result	Standard Range
1	Coli forms	Absent	Absent
2	E coli	Absent	Absent

NOTE:- The party has asked for the above test parameters only

End of report

REMARKS : In opinion of the undersigned, the sample referred to above is of standard quality as defined in the act and the rules made there under for the reason given. Complies with I.P./ BP/ USP/ IHS in above respects

Responsibilities: To organize the meetings and maintain documentation as per the guidelines.

- ✓ Water Efficiency
- ✓ Wastewater Management
- ✓ Solid Waste Management
- ✓ E- Waste Management
- ✓ Energy Efficiency
- ✓ Emissions
- ✓ Indoor Air Quality
- ✓ Light and Acoustics
- ✓ Environmental and Sustainability Initiatives

Objectives

- ✓ To encourage students to keep environment clean.
- ✓ To educate students to create awareness amongst public.
- ✓ To make students understand the importance of environment and its problem areas.

Functions

- ✓ To sensitize the students to minimize the use of polluting product.
- ✓ To motivate students to adopt environment friendly practices which include paper bags, save electricity, etc.
- ✓ To take necessary steps to protect the environment.

Outcomes

- ✓ Awareness is created about the hazards that are spoiling the environment.
- ✓ Students and teachers realize their individual responsibilities to save the environment.
- ✓ The Institution is committed to managing its campus in accordance with responsibilities towards promoting sustainable environment.
- ✓ These responsibilities can be demonstrated within the following areas:
 - Green Environment and Clean Campus
 - Solid Waste Management

Duration of committee : Three years

Meetings Schedule : At least 2 meetings in a year. If any emergency, meeting will be called by the Director of the Institute

Record Maintained by : Coordinator/Secretary of the Committee

GREEN CAMPUS POLICIES @ ISFCP

ESTD. 1984

ISF COLLEGE OF PHARMACY
(An Autonomous College U/s UGC Act 1956)

NAAC Accredited "A" Grade College
GT Road, Ghal-Kalan, Moga -142 001 (PB.)

www.isfcp.org

GREEN CAMPUS POLICIES

- 1. Energy Efficiency:** ISFCP focus on energy conservation by implementing policies such as turning off lights and appliances when not in use, reducing heating and cooling usage, using energy-efficient equipment, and implementing renewable energy solutions such as solar panels.
- 2. Water Conservation:** Policies for water conservation include reducing water usage, repairing leaks, and using water-saving technologies such as low-flow toilets and faucets. Additionally, ISFCP implement policies that encourage reusable water bottles.
- 3. Waste Reduction and Recycling:** ISFCP implement policies for waste reduction and recycling, such as providing recycling bins throughout campus, encouraging reusable products, and reducing food waste by composting and donating excess food.
- 4. Transportation:** ISFCP promote sustainable transportation options such as cycling, walking, public transportation, carpooling, and using electric or hybrid vehicles. Policies include providing bike racks, offering shuttle services, and incentivizing sustainable transportation.
- 5. Sustainable Purchasing:** ISFCP implement sustainable purchasing policies that require the consideration of environmental factors when purchasing goods and services, such as selecting environmentally friendly products and using eco-friendly packaging.
- 6. Green Spaces:** ISFCP develop and maintain green spaces such as parks and gardens, encouraging students and faculty to interact with nature and promoting biodiversity.
- 7. Education and Outreach:** ISFCP provide educational and outreach programs that promote sustainability practices, raise awareness about environmental issues, and engage with the community to foster a culture of sustainability.

These policies help academic institutes promote sustainable practices, reduce their environmental impact, and contribute to a healthier and more sustainable future.

1. **Sustainable Food:** ISFCP adopt policies that promote sustainable food practices, such as sourcing local and organic food, reducing food waste, and providing vegetarian and vegan options. Additionally, institutes implement community gardens and composting programs.
2. **Green Building:** ISFCP design and build energy-efficient green buildings, use sustainable materials, and incorporate renewable energy solutions such as solar panels and geothermal systems.
3. **Water Conservation in Landscaping:** ISFCP implement policies for water conservation in landscaping, such as using drought-tolerant plants, reducing turf areas, and implementing rainwater harvesting systems.
4. **Sustainable Event Planning:** ISFCP develop policies for sustainable event planning that focus on reducing waste, promoting sustainable transportation, and using eco-friendly products.
5. **Sustainable Procurement:** ISFCP implement sustainable procurement policies that require suppliers to adhere to environmental standards and reduce their carbon footprint.
6. **Carbon Footprint Reduction:** ISFCP focus on reducing their carbon footprint by implementing policies such as carbon offset programs, reducing energy consumption, and promoting sustainable transportation.
7. **Sustainable Technology:** ISFCP promote sustainable technology policies, such as using energy-efficient IT equipment and implementing virtual conferencing solutions to reduce travel-related emissions.

These additional policies further enhance the efforts of academic institutes to promote sustainability and reduce their environmental impact.

1. **Green Cleaning:** ISFCP adopt policies that promote green cleaning practices, such as using environmentally friendly cleaning products, reducing chemical use, and using microfiber cleaning cloths that require less water.
2. **Sustainable Printing:** Academic institutes implement policies for sustainable printing, such as using recycled paper, reducing paper use through electronic documents and double-sided printing, and promoting responsible disposal of printer cartridges.

3. **Water Quality Management:** ISFCP implement policies for water quality management, such as monitoring water quality on campus and promoting responsible disposal of hazardous waste.
4. **Green Labs:** ISFCP develops policies that promote sustainable practices in research labs, such as reducing chemical use, implementing energy-efficient equipment, and promoting responsible disposal of hazardous waste.
5. **Sustainable Finance:** ISFCP adopts sustainable finance policies that promote responsible investment and divestment practices, such as investing in renewable energy and sustainability-oriented companies and divesting from fossil fuels.
6. **Biodiversity Conservation:** ISFCP promotes biodiversity conservation by implementing policies that preserve natural areas, protect wildlife habitats, and encourage the use of native species in landscaping.
7. **Sustainability Reporting:** ISFCP develops policies for sustainability reporting that measure and report on their sustainability performance, set sustainability targets, and communicate their sustainability efforts to stakeholders.

These policies further enhance the efforts of academic institutes to promote sustainability and reduce their environmental impact.

1. **Green Purchasing:** ISFCP develop policies that promote green purchasing, such as sourcing products made from recycled materials, reducing packaging waste, and promoting fair trade and ethical sourcing.
2. **Zero Waste:** ISFCP adopt policies that aim for zero waste, such as implementing composting and recycling programs, reducing single-use plastics, and promoting the reuse and repair of products.
3. **Carbon Offsetting:** ISFCP offset their carbon emissions by investing in carbon offset programs, such as tree planting or renewable energy projects, to mitigate their environmental impact.
4. **Sustainable Transportation Infrastructure:** ISFCP invest in sustainable transportation infrastructure, such as bike lanes, electric vehicle charging stations, and public transportation systems, to promote sustainable transportation options.

5. **Sustainable Energy Procurement:** ISFCP procure renewable energy sources, such as wind, solar, or geothermal, to power their campuses and reduce their carbon footprint.
6. **Sustainable Waste Management:** ISFCP develop policies for sustainable waste management, such as reducing food waste, implementing waste reduction and recycling programs, and promoting responsible disposal of hazardous waste.
7. **Social Sustainability:** ISFCP promote social sustainability policies, such as supporting local community initiatives, promoting diversity and inclusion, and providing access to education and resources to underrepresented groups.

These policies help academic institutes to promote sustainability practices and reduce their environmental and social impact.

1. **Green Procurement for Construction:** ISFCP develop policies that promote green procurement practices for construction projects, such as using environmentally friendly building materials, reducing waste during construction, and implementing energy-efficient building designs.
2. **Sustainable Water Management:** ISFCP implement policies for sustainable water management, such as reducing water usage, implementing rainwater harvesting systems, and promoting water reuse in irrigation and landscaping.
3. **Green IT:** ISFCP develop policies for green IT practices, such as using energy-efficient computers and servers, implementing virtualization to reduce energy consumption, and promoting responsible disposal of electronic waste.
4. **Sustainable Investments:** ISFCP invest in sustainability-oriented companies and funds that prioritize environmental and social responsibility and avoid investments in companies with a negative environmental or social impact.
5. **Sustainable Design and Operations:** ISFCP adopt policies prioritising sustainability in the design and operation of their buildings and campuses, such as using green building certifications, implementing sustainable landscaping practices, and promoting energy efficiency in campus operations.
6. **Sustainable Supply Chain Management:** ISFCP promote sustainable supply chain management practices, such as engaging with suppliers to improve environmental and

social responsibility, reducing transportation-related emissions, and promoting fair labour practices.

7. **Green Research:** ISFCP promote green research practices, such as researching sustainability topics, reducing waste and energy consumption in research labs, and promoting responsible disposal of hazardous materials.

These policies further enhance the sustainability efforts of academic institutes and promote a more sustainable future.

1. **Green Events:** ISFCP develop policies for green events that prioritize sustainability, such as reducing waste by providing reusable cups and plates, using digital communications instead of printed materials, and promoting sustainable transportation options for event attendees.
2. **Sustainable Building Operations:** ISFCP implement policies for sustainable building operations, such as using building automation systems to optimize energy usage, reducing water usage through intelligent irrigation systems, and promoting sustainable food options in campus cafes and restaurants.
3. **Sustainable Research Partnerships:** ISFCP partner with businesses and organizations that prioritize sustainability, such as conducting joint research on environmental and social sustainability and implementing sustainable practices in their supply chains.
4. **Environmental Justice:** ISFCP adopts policies that promote environmental justice, such as engaging with marginalized communities to address environmental inequalities, promoting access to clean water and air, and advocating for climate justice policies.
5. **Sustainable Transportation Demand Management:** ISFCP implements policies prioritising sustainable transportation options, such as promoting public transportation, providing shuttle services, and incentivizing bike commuting and carpooling.
6. **Green Campus Design:** ISFCP prioritize sustainability in designing new buildings and campus renovations, such as incorporating green roofs and walls, optimizing natural lighting and ventilation, and using sustainable building materials.

7. **Sustainable Operations and Maintenance:** ISFCP develops policies for sustainable operations and maintenance, such as implementing preventive maintenance practices to reduce energy and water waste and promoting responsible disposal of hazardous waste.

These policies help academic institutes further promote sustainability practices and reduce their environmental and social impact.

1. **Green Career Development:** ISFCP develop policies promoting green career development opportunities for students, such as offering internships and jobs in sustainability-focused organizations and training sustainability skills.
2. **Sustainable Waste Reduction:** ISFCP implement policies for sustainable waste reduction, such as reducing the use of disposable products, promoting reusable bags and containers, and implementing a zero-waste campus policy.
3. **Sustainable Procurement for Food Services:** ISFCP develop policies that promote sustainable procurement practices, such as sourcing food from local farmers and suppliers, reducing food waste, and promoting sustainable packaging.
4. **Sustainable Product Certification:** ISFCP promote sustainable product certification programs, such as Energy Star and LEED certifications, and prioritize using certified products in their buildings and operations.
5. **Green Technology Research:** ISFCP research green technology and sustainability solutions, such as developing new renewable energy technologies and promoting sustainable transportation innovations.
6. **Green Campus Collaboration:** ISFCP collaborate with other organizations, such as local governments and businesses, to promote sustainability initiatives and develop joint sustainability projects.
7. **Sustainable Investment in Students:** ISFCP invest in sustainability education and development for students by providing scholarships for sustainability-focused programs and promoting sustainability clubs and organizations on campus.

These policies help academic institutes promote sustainability practices and reduce their environmental and social impact while providing opportunities for students to develop skills and knowledge in sustainability fields.

1. **Sustainable Mobility:** ISFCP develop policies that promote sustainable mobility options, such as promoting walking and biking infrastructure, implementing electric vehicle charging stations, and incentivizing public transportation.
2. **Sustainable Supply Chain:** ISFCP implement policies for sustainable supply chain management, such as engaging with suppliers to reduce their carbon footprint, promoting ethical sourcing, and reducing packaging waste.
3. **Green Office:** ISFCP promote green office practices, such as reducing paper usage, using energy-efficient lighting and equipment, and promoting responsible disposal of electronic waste.
4. **Sustainable Innovation:** ISFCP promote sustainable innovation policies, such as developing green technologies and solutions, incubating startups prioritising sustainability, and providing funding for sustainability-focused research.
5. **Sustainable Tourism:** ISFCP promote sustainable tourism policies, such as promoting responsible travel practices, reducing the environmental impact of campus events and visitors, and providing education and resources on sustainable tourism.
6. **Sustainable Campus Operations:** ISFCP develop policies for sustainable campus operations, such as promoting energy conservation and efficiency, reducing water consumption, and promoting sustainable food options.
7. **Climate Action Plan:** ISFCP develop a climate action plan that outlines their goals and strategies for reducing their carbon footprint and promoting sustainability across campus.

These policies help academic institutes promote sustainability practices and reduce their environmental and social impact while contributing to a more sustainable future for all.

1. **Sustainable Campus Design Guidelines:** ISFCP create sustainable campus design guidelines to ensure that all new construction projects prioritize sustainability, incorporate green building practices, and reduce the overall environmental impact of the campus.
2. **Sustainable Community Engagement:** ISFCP develop policies for sustainable community engagement, such as partnering with local organizations to promote environmental stewardship and collaborating with community members to address environmental issues.

3. **Sustainable Procurement for IT:** ISFCP implement policies for sustainable procurement for IT, such as selecting energy-efficient equipment, promoting responsible disposal of electronic waste, and selecting vendors that prioritize environmental and social responsibility.
4. **Sustainable Education and Research:** ISFCP prioritize sustainability in their education and research programs, promoting interdisciplinary research and providing students with opportunities to learn about sustainability topics.
5. **Sustainable Investment in Infrastructure:** ISFCP invest in sustainable infrastructure, such as installing energy-efficient lighting and HVAC systems, implementing water-saving technologies, and promoting renewable energy solutions.
6. **Sustainable Energy Management:** ISFCP develop policies for sustainable energy management, such as conducting energy audits, promoting energy conservation, and implementing renewable energy solutions.
7. **Sustainable Campus Transportation:** ISFCP prioritize sustainable transportation options, such as providing shuttle services, incentivizing carpooling and biking, and promoting public transportation.

These policies help academic institutes promote sustainability practices and reduce their environmental and social impact while contributing to a more sustainable future for all.

1. **Sustainable Land Use:** ISFCP implements policies for sustainable land use, such as promoting green space for food production, wildlife habitat, and outdoor recreation and preserving natural areas on campus.
2. **Sustainable Business Practices:** ISFCP promote sustainable business practices, such as reducing waste in administrative operations, promoting sustainable purchasing, and using eco-friendly products.
3. **Sustainable Building Retrofits:** ISFCP implements policies for sustainable building retrofits, such as upgrading building systems to be more energy-efficient and using sustainable materials for renovations.
4. **Sustainable Transportation Infrastructure:** ISFCP invests in sustainable transportation infrastructure, such as bike lanes, electric vehicle charging stations, and public transportation systems, to promote sustainable transportation options.

5. **Sustainable Dining:** ISFCP develops policies that promote sustainable dining practices, such as sourcing local and organic food, reducing food waste, and providing vegetarian and vegan options.
6. **Sustainable Building Materials:** ISFCP prioritize using sustainable building materials, such as using recycled and renewable materials and reducing the use of non-renewable resources.
7. **Sustainable Water Infrastructure:** ISFCP implement policies for sustainable water infrastructure, such as reducing water usage, implementing rainwater harvesting systems, and promoting water reuse in irrigation and landscaping.

These policies help academic institutes promote sustainability practices and reduce their environmental and social impact, while contributing to a more sustainable future for all.

1. **Sustainable Campus Governance:** ISFCP implement policies for sustainable campus governance, such as creating a sustainability committee, promoting sustainable decision-making processes, and prioritizing sustainability in campus planning.
2. **Sustainable Transportation Demand Management:** ISFCP implement policies prioritising sustainable transportation options, such as promoting public transportation, providing shuttle services, and incentivizing bike commuting and carpooling.
3. **Sustainable Research:** ISFCP promote sustainable research practices, such as reducing waste and energy consumption in research labs and promoting responsible disposal of hazardous materials.
4. **Sustainable Water Infrastructure:** ISFCP implement policies for sustainable water infrastructure, such as reducing water usage, implementing rainwater harvesting systems, and promoting water reuse in irrigation and landscaping.
5. **Sustainable Landscaping:** ISFCP prioritize sustainable landscaping practices, such as promoting native species, reducing turf areas, and using sustainable irrigation systems.
6. **Sustainable Operations Monitoring:** ISFCP implement policies for monitoring sustainable operations, such as tracking energy and water usage and measuring progress towards sustainability goals.
7. **Sustainable Energy Innovation:** ISFCP promote sustainable energy innovation policies, such as developing renewable energy solutions and incubating startups prioritising sustainability.

These policies help academic institutes promote sustainability practices and reduce their environmental and social impact while contributing to a more sustainable future for all.

1. **Sustainable Outreach and Education:** ISFCP prioritize sustainability outreach and education, such as providing sustainability-focused courses and workshops, promoting sustainability through campus events, and engaging with the broader community to promote sustainability.
2. **Sustainable Transportation Planning:** ISFCP develop policies for sustainable transportation planning, such as prioritizing pedestrian and bicycle infrastructure and implementing transportation demand management strategies.
3. **Sustainable Waste Management:** ISFCP implement policies for sustainable waste management, such as promoting recycling and composting programs, reducing single-use plastics, and promoting responsible disposal of hazardous waste.
4. **Sustainable Event Management:** ISFCP promote sustainable event management practices, such as reducing waste by providing reusable cups and plates, using digital communications instead of printed materials, and promoting sustainable transportation options for event attendees.
5. **Sustainable Campus Culture:** ISFCP foster a culture of sustainability on campus by promoting sustainability values and behaviors and recognizing and rewarding sustainability achievements.
6. **Sustainable Campus Planning:** ISFCP prioritize sustainability in their campus planning process by incorporating sustainability goals into campus master plans and promoting sustainable building and landscaping designs.
7. **Sustainable Investment in Infrastructure and Operations:** ISFCP invest in sustainable infrastructure and operations, such as implementing energy-efficient lighting and HVAC systems and promoting renewable energy solutions.

These policies help academic institutes promote sustainability practices and reduce their environmental and social impact while contributing to a more sustainable future for all.

MAINTENANCE POLICIES

Constituted committee for Maintenance

S.No.	Name	Designation	Post
1.	Dr. G. D. Gupta	Director-cum-Principal	Coordinator
2.	Er. Jaspreet Singh	Dean Examination	Member
3.	Mr. Tanmay M.	Associate Professor	Member
4.	Ms. Navjot Kaur	Assistant Professor	Member
5.	Mr. Gurpreet Singh	Assistant Professor	Member
6.	Mr. Khadga Raj	Assistant Professor	Member
7.	Mr. Raman Bansal	Maintenance Incharge	Member
8.	Mr. Vishal Kumar	Hostel Warden and Physical Teacher	Member

Rules and Regulations of Maintenance policies -

- 1. Regular inspections:** Committee members and faculty members have a regular schedule for inspecting all buildings, equipment, and facilities to identify any maintenance issues. The inspections be conducted by trained personnel knowledgeable about the various systems and components.
- 2. Preventive maintenance:** To avoid breakdowns and prolong the equipment's lifespan, the institution follows a preventive maintenance program. This includes regular cleaning, lubrication, and equipment adjustment, as the manufacturer recommends.
- 3. Repair and replacement:** When equipment or facilities break down, the institution have a policy for repairing or replacing them. This includes a system for reporting maintenance issues and prioritizing repairs based on urgency and impact on operations.
- 4. Safety checks:** Safety be a top priority for any autonomous institution, and regular safety checks be conducted to ensure that all systems and equipment comply with applicable regulations and standards. Safety checkpoints – Building Safety, Fire Safety, Cyber Security, Safety, and Security on Campus, including Hostel.

5. **Training:** All personnel receive training on properly operating and maintaining equipment and identifying potential maintenance issues. This will help to prevent breakdowns and ensure that maintenance issues are reported promptly.
6. **Documentation:** All maintenance activities include inspection reports, repair orders, and preventive maintenance schedules. This documentation be kept on file for future reference.
7. **Budgeting:** The institution allocate sufficient funds for maintenance activities in its annual budget, including yearly maintenance charges. This include funds for regular maintenance, repairs, and equipment replacement if not repairable as per the process.
8. **Vendor management:** The institution have policies for managing vendors who provide maintenance services properly and promptly. One list of vendors will be generated, and new vendors will be included as needed. This consists of vendor selection, contract negotiation, and performance monitoring.
9. **Asset management:** The institution have a system for tracking and managing its assets, including equipment and facilities. This includes a database or inventory system listing all assets, locations, ages, and maintenance history. This information help the institution make informed decisions about repairs, replacements, and upgrades.
10. **Energy management:** The institution have policies to manage energy use and reduce waste. This might include initiatives such as energy-efficient lighting, HVAC systems, and equipment, as well as regular monitoring and reporting of energy consumption.
11. **Environmental sustainability:** Besides energy management, the institution have policies and practices to promote environmental sustainability. This might include initiatives such as waste reduction, recycling, and using environmentally friendly products and materials.
12. **Emergency preparedness:** The institution have an emergency preparedness plan outlining procedures for responding to natural disasters, power outages, and other emergencies. This plan include protocols for shutting down equipment and securing facilities to minimize damage and ensure personnel safety.

13. **Feedback and continuous improvement:** The institution seeks feedback from personnel and stakeholders on its maintenance policies and practices, using this feedback to improve its maintenance program continuously. This might include regular surveys or focus groups and ongoing monitoring of maintenance metrics such as equipment uptime and repair costs.
14. **Risk management:** The institution have policies in place to identify and manage risks associated with maintenance activities. This might include risk assessments for high-risk equipment or facilities and protocols for managing and mitigating risks during maintenance activities.
15. **Compliance:** The institution ensure that all maintenance activities comply with applicable laws, regulations, and standards. This might include regulations related to safety, environmental protection, and occupational health and safety.

Overall, an effective maintenance program for an autonomous institution be comprehensive, well-documented, and continuously improved based on feedback and performance metrics. By prioritizing maintenance and asset management, the institution ensure its facilities and equipment are well-maintained and support its mission and objectives.

16. **Quality control:** The institution has policies to ensure that all maintenance activities are carried out to a high-quality standard. This might include regular quality checks, performance metrics, and training programs for maintenance personnel.
17. **Contractor management:** If the institution contracts out maintenance services to external vendors, it has policies for selecting, managing, and monitoring these contractors. This might include vendor performance metrics, contract review and renewal, and ongoing communication with contractors to ensure their services meet the institution's needs.
18. **Data analysis:** The institution use data analysis tools to identify trends, anomalies, and opportunities for improvement in its maintenance program. This might include predictive maintenance tools that use sensor data and machine learning algorithms to predict equipment failures before they occur, as well as data visualization and reporting tools that make it easy to identify trends and areas for improvement.

19. **Training and certification:** Maintenance personnel receive ongoing training and certification to ensure they know about the latest maintenance techniques and technologies. This might include training in specific areas such as electrical systems, HVAC, or plumbing and certifications from industry organizations such as the International Facility Management Association (IFMA).
20. **Documentation and record-keeping:** The institution has robust documentation and record-keeping policies for all maintenance activities. This might include digital record-keeping systems, document retention policies, and procedures for archiving and retrieving records.
21. **Continuous improvement:** The institution must continuously improve its maintenance program through ongoing monitoring, evaluation, and feedback. This might include regular audits, performance metrics, and benchmarking against other institutions to identify best practices and areas for improvement.

By implementing these policies and practices, an autonomous institution build a maintenance program that is comprehensive, efficient, and effective in supporting the institution's mission and objectives.

22. **Life cycle management:** The institution has a life cycle management policy for its assets, which outlines the expected lifespan of each asset and the maintenance and replacement strategies required to optimize its helpful life. This policy is based on industry best practices, manufacturer recommendations, and the institution's asset experience.
23. **Risk assessment:** The institution conduct regular risk assessments to identify potential hazards associated with its maintenance activities and develop strategies to mitigate them. This might include conducting hazard analyses, developing safety plans, and providing training and equipment to personnel to minimize risks.
24. **Spare parts inventory management:** The institution maintain a spare parts inventory for critical equipment and have policies to manage this inventory. This might include inventory tracking, ordering and reordering policies, and establishing minimum and maximum inventory levels to ensure that critical parts are always available when needed.

25. **Maintenance scheduling:** The institution has policies for scheduling maintenance activities, considering factors such as equipment availability, personnel availability, and the impact of maintenance activities on the institution's operations. This might include developing a maintenance calendar, prioritizing maintenance activities based on urgency and impact, and developing contingency plans for unexpected events that may impact maintenance schedules.
26. **Continuous learning:** The institution be committed to constant learning and improvement in its maintenance program. This might include attending industry conferences and workshops, partnering with other institutions to share best practices, and participating in research and development projects related to maintenance and asset management.
27. **Communication and collaboration:** The institution promote communication and collaboration between maintenance personnel, operations personnel, and other stakeholders to ensure that maintenance activities are aligned with the institution's goals and objectives. This might include regular meetings, cross-functional teams, and open communication channels to facilitate collaboration and problem-solving.

By implementing these policies and practices, an autonomous institution build a maintenance program that is comprehensive, proactive, and adaptive to the changing needs of the institution. By prioritizing maintenance and asset management, the institution ensure its facilities and equipment are well-maintained and support its mission and objectives.

28. **Performance tracking:** The institution tracks its maintenance program's performance using key performance indicators (KPIs) to monitor progress and identify areas for improvement. KPIs might include metrics such as equipment uptime, maintenance costs, and maintenance response times.
29. **Root cause analysis:** When equipment failures occur, the institution conduct root cause analysis to identify the underlying causes of the failure and develop strategies to prevent similar failures from happening in the future. This might include reviewing maintenance records, conducting equipment inspections, and implementing corrective actions.
30. **Asset retirement:** The institution has policies for retiring assets that have reached the end of their useful life. This might include decommissioning equipment,

disposing hazardous materials, and ensuring that retired assets are properly documented and accounted for.

31. **Data security:** The institution has policies to ensure the security of its maintenance data, including backup and recovery procedures, access controls, and data encryption. This is particularly important for sensitive data such as maintenance records, equipment specifications, and repair logs.
32. **Continuous feedback:** The institution encourage constant feedback from stakeholders, including maintenance personnel, operations personnel, and other users of the institution's facilities and equipment. This feedback be used to identify areas for improvement and ensure that the maintenance program is aligned with the institution's needs.
33. **Continuous training:** The institution provides continuous training and development opportunities for maintenance personnel to ensure they have the skills and knowledge needed to maintain their assets. This might include training in new equipment or technologies, safety procedures, and soft skills such as communication and collaboration.
34. **Performance incentives:** The institution consider providing performance incentives for maintenance personnel, to reward excellent performance and encourage continuous improvement. Incentives might include bonuses, recognition programs, or opportunities for advancement within the institution.
35. **Outsourcing:** The institution has policies for outsourcing maintenance activities to external vendors when necessary. This might include developing a request for proposal (RFP) process, establishing performance metrics and service level agreements (SLAs), and conducting regular audits to ensure that vendors meet the institution's expectations.
36. **Sustainability planning:** The institution has a sustainability plan that considers the environmental impact of its maintenance activities and identifies opportunities to reduce waste, conserve resources, and promote sustainable practices. This might include initiatives such as energy-efficient lighting, green landscaping practices, and using environmentally friendly cleaning products.

37. **Asset tracking:** The institution has policies for tracking its assets throughout their lifecycle, from acquisition to retirement. This might include using a digital asset management system to track asset location, maintenance history, and other essential data.
38. **Equipment selection:** The institution has policies for selecting new equipment, considering factors such as reliability, durability, maintenance requirements, and total cost of ownership. This might include conducting a cost-benefit analysis, consulting with experts, and considering end-users' needs.
39. **Compliance monitoring:** The institution monitors compliance with all relevant laws, regulations, and standards related to maintenance activities and addresses any non-compliance issues. This might include conducting regular audits, developing compliance plans, and training personnel on compliance requirements.
40. **Equipment upgrades:** The institution has policies for upgrading equipment when necessary to ensure it remains reliable and efficient over its lifecycle. This might include regular assessments of equipment performance, consultation with experts, and consideration of new technologies and emerging trends.
41. **Sustainability reporting:** The institution regularly reports its sustainability initiatives and progress to demonstrate its commitment to sustainable practices and engage stakeholders in its efforts. This might include reporting on energy use, waste reduction, and other sustainability metrics.
42. **Asset disposal:** The institution has policies for disposing of assets at the end of their lifecycle in an environmentally responsible way and compliant with relevant laws and regulations. This might include recycling, donating, or selling assets that still have value and disposing of hazardous materials safely and competently.
43. **Digital transformation:** The institution consider adopting digital technologies to improve its maintenance program, such as asset management software, predictive maintenance tools, and data analytics platforms. This help to improve efficiency, reduce costs, and enhance asset performance over time.
44. **Asset valuation:** The institution regularly assesses its assets' value to ensure that it has an accurate understanding of the value of its portfolio and to inform decision-making around maintenance, repair, and replacement. This might include working

with appraisers and other experts to develop a comprehensive asset valuation report.

45. **Asset performance metrics:** The institution establish performance metrics for its assets, track individual asset performance, and identify improvement opportunities. This might include metrics such as mean time between failure (MTBF), mean time to repair (MTTR), and overall equipment effectiveness (OEE).
46. **Continuous feedback from end-users:** The institution seek constant feedback from end-users of its facilities and equipment to identify improvement opportunities and ensure that maintenance activities align with their needs and expectations. This might include surveys, focus groups, and other feedback mechanisms.
47. **Maintenance automation:** The institution consider automating certain maintenance activities, such as routine inspections, to improve efficiency and reduce costs. This might include using drones, sensors, and other technologies to automate data collection and analysis.
48. **Warranty management:** The institution has policies for managing warranties on its equipment to ensure that it takes advantage of manufacturer warranties and other guarantees. This might include developing a warranty tracking system, establishing procedures for making warranty claims, and ensuring that maintenance activities do not void warranties.
49. **Collaboration with vendors:** The institution work closely with its maintenance vendors and suppliers to ensure they are aligned with its goals and objectives and identify opportunities for collaboration and innovation. This might include regular meetings, joint problem-solving exercises, and joint research and development projects.
50. **Performance-based contracting:** The institution consider performance-based contracting for maintenance services, where vendors are paid based on their ability to meet specific performance metrics and goals. This help ensure that vendors are aligned with the institution's goals and objectives and are motivated to deliver high-quality services.

51. **Digital asset management:** The institution implement a digital asset management system to track and manage its assets, including equipment, facilities, and other resources. This help to improve efficiency, reduce costs, and enhance asset performance over time.
52. **Training and certification tracking:** The institution track its maintenance personnel's training and certification status This might include maintaining a database of training records and certifications and developing procedures for renewing and updating certifications.
53. **Knowledge management:** The institution have policies for managing knowledge related to its maintenance program, including best practices, lessons learned, and other important information. This might include developing a knowledge management system, establishing procedures for sharing knowledge among personnel, and promoting a culture of knowledge sharing.
54. **Environmental management:** The institution have policies in place for managing the environmental impact of its maintenance program, including reducing waste, minimizing energy consumption, and conserving water resources. This might include developing sustainability goals, establishing procedures for tracking and reporting on environmental performance, and promoting a culture of environmental responsibility.
55. **Work order management:** The institution have policies for managing work orders related to maintenance activities, including tracking progress, prioritizing tasks, and communicating with stakeholders. This might include using a digital work order management system, establishing procedures for assigning and tracking work orders, and providing regular stakeholder updates.
56. **Root cause analysis:** The institution conduct root cause analysis to identify the underlying causes of equipment failures and other maintenance-related issues, and to develop strategies for preventing similar failures in the future. This might include reviewing maintenance records, conducting equipment inspections, and implementing corrective actions.
57. **Asset management strategy:** The institution have a comprehensive asset management strategy that aligns with its mission and objectives and outlines its

assets' expected lifecycle, the maintenance strategies required to optimize their performance, and the metrics used to track performance over time. This might include developing a detailed asset management plan, conducting regular asset performance assessments, and revising the plan as necessary.

58. **Budget planning:** The institution engage in proactive budget planning to ensure sufficient resources to support its maintenance program, including identifying potential cost savings, developing a long-term budget plan, and tracking spending against budgeted amounts.
59. **Training and development planning:** The institution develop a comprehensive training and development plan for maintenance personnel, including identifying training needs, selecting appropriate training programs, and providing ongoing support and mentoring. This might include providing regular performance feedback, establishing career development pathways, and promoting a culture of continuous learning.

By implementing these policies and practices, an autonomous institution build a maintenance program that is proactive, effective, and sustainable. By prioritizing maintenance and asset management, the institution ensure its facilities and equipment are well-maintained and optimized for performance over their lifecycle.

Overall, the maintenance policies of an autonomous institution be designed to ensure that all buildings, equipment, and facilities are kept in good working order to support the institution's mission and operations.

7.1.6 -Quality audits on environment and energy are regularly undertaken by the institution: Certificates of the awards received from recognized agency

GLP Certificate

No. Drugs(5)Pb.2022/ 1651

Dated: 15-2-22

Certified that the firm M/s I.S.F. Analytical Laboratory, situated at Campus of I.S.F. College of Pharmacy, Ferozepur Road, Moga, Punjab, India is holding approval on Form 37 bearing No. 5-Testing-Pb., granted on 30-10-2013, which is retained upto 29-10-2023, which is duly issued by this department under the provisions of Drugs and Cosmetics Act, 1940 & Rules made there under. As per inspection report dated 29-10-2018 of Drugs Control Officer, Moga, the firm is observing the conditions of GOOD LABORATORIES PRACTICES as laid down under Schedule 'L-1' of the Drugs & Cosmetics Act, 1940 and Rules 1945.

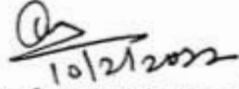

The responsibility for the quality of the individual batches of raw material and drugs formulations tested & analyzed through this process is the sole responsibility of the manufacturer.

This certificate is valid for two years from the date of issue of this certificate subject to the periodical inspections and compliance of Schedule 'L-1' of the Drugs & Cosmetics Act, 1940 and Rules, 1945 thereof.

Date: -

To

No. Drugs (3) Pb. 2023 / 869/

Dated: 26/10/2023

Subject: Retention of Testing Licences under Drugs & Cosmetics Act, 1940 and Rules made there under

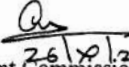

Reference your application dated 20-09-2023 & 25-10-2023, which have been duly considered by the undersigned, on the basis of which your approval is hereby RETAINED and its validity is as mentioned below: -

Form	Drugs Manufacturing Licences No	Date of 1st Grant	Now retained upto	Name of Responsible Person(s): Trust
37	5-Testing-Pb.	30-10-2013	29-10-2028	Mr. Praveen Garg S/o Sh. Raj Kumar (Authorized Signatory / Chairman)

Person(s) Responsible for Testing	Sections approved for Testing:
(i) Mr. Abhay Pandey (M.Sc.) S/o Lt. Mr. Anant Bhagwan Pandey	(a) Drugs other than those specified in Schedules C and C (1): 1. Drugs requiring Physical, Chemical and Instrumental Testing
(ii) Mr. Raj Kumar Narang, Ph.D. S/o Mr. Krishan Lal.	(b) Drugs specified in Schedules C and C (1): 1. Drugs requiring Physical, Chemical and Instrumental Testing
(iii) Mrs. Amita Bulandi (M.Pharma) W/o Mr. Mittan Bulandi.	(c) Cosmetics (d) Permitted to carry out test of drugs requiring Microbiological Testing

Conditions of Licence

- 1) This licence and any certificate of retention in force shall be kept on the approved premises and shall be produced at the request of an Inspector appointed under the Drugs and Cosmetics Act, 1940.
- 2) If the licensee wishes to undertake during the currency of the licence the manufacture of any drug specified in Schedules C and C (1) [excluding those specified in Schedule X] not including above, he should apply to the Licensing Authority for the necessary endorsement as provided in Rule 75(3). This licence will be deemed to extend to the items so endorsed.
- 3) Any change in the [competent technical staff] named in the licence shall be forthwith reported to the Licensing Authority.
- 4) If the licensee wants to manufacture for sale additional items of drugs not included above he should apply to the Licensing Authority for the necessary endorsement as provided in Rule 69(5). This licence will be deemed to extend to the items so endorsed.
- 5) The licensee shall inform the Licensing Authority in writing in the event of any change in the constitution of the firm operating under the licence. Where any change in the constitution of the firm takes place, the current licence shall deemed to be valid for a maximum period of three months from the date on which the change takes place unless, in the meantime, a fresh licence has been taken from the Licensing Authority in the name of the firm with the changed constitution.

Appreciation Letter

Dear Team at ISF College of Pharmacy,

I am writing to extend our heartfelt appreciation for organizing the recent blood donation camp. It was a remarkable initiative that truly exemplifies the spirit of community service and altruism. College and Garg Hospital executed a MoU for regular this activity in future.

The selfless contribution of your students, faculty, and staff members in donating blood has the potential to save numerous lives and make a significant difference in our community. Your dedication to organizing such events highlights the importance of promoting awareness about blood donation and its impact on healthcare.

The collaboration between Garg Hospital and ISF College of Pharmacy underscores our shared commitment to serving the healthcare needs of our community.

Your efforts have made a meaningful difference in the lives of many individuals, and we sincerely appreciate your dedication to this noble cause.

Warm regards,

Dr. Sandeep Garg

आई.एस.एफ. कालेज आफ फामेसी में विश्व जल दिवस का आयोजन

मोगा, 24 मार्च (संजीव कुमार अरोड़ा)

राज्य की प्रमुख शिक्षण संस्था आई.एस.एफ. कालेज आफ फामेसी द्वारा विश्व जल दिवस का आयोजन किया गया। इस मौके पर संस्था के डायरेक्टर डा.जी.डी.गुप्ता ने अपने व्याख्यान में कहा कि 20 मार्च 1993 से प्रत्येक वर्ष यह दिवस मनाया जाता है। इस वर्ष की थीम पानी और स्वच्छता संकट को हल करने के लिए कार्यों में तेजी लाना है। उन्होंने कहा कि पानी जीवन, पर्यावरण, पौधे, जीव जंतु आदि का अनमोल हिस्सा है। इसके बिना जीवन को चलाना न केवल मुश्किल है, बल्कि असंभव है। अतः हर नागरिक की यह जिम्मेवारी है कि इसको स्वच्छ एवं पर्याप्त मात्रा में बनाए रखने के लिए कारगर कदम उठाने चाहिए। इस

मौके पर वाइस प्रिंसिपल डा. आर.के.नारंग ने अपने व्याख्यान में दैनिक जीवन को जल को सही रूप से उपयोग करने पर जोर दिया एवं जहां भी इसको बचाया जा सके, उसे अवश्य बचाना चाहिए। डा. बलदेव सिंह ने जल ही जीवन है पर अपने विचार रखे एवं पर्यावरण को स्वच्छ बनाने के लिए जोर दिया। छात्रों के द्वारा बहुत ही महत्वपूर्ण बिंदुओं पर विचार के साथ-साथ इससे जुड़े कई प्रश्न पूछे एवं भारत सरकार के द्वारा चलाए जा रहे योजनाओं पर चर्चा की। कार्यक्रम का संचालन विशाल सिंह के द्वारा किया गया। इस मौके पर डा. अमनदीप सिंह, डा. शमशेर सिंह, डा. पूजा चावला, डा. नितिन शर्मा आदि फैकिल्टी स्टाफ व विद्यार्थी उपस्थित थे।

03-07-22 No Plastic Day

Date: 03/07/2022

No Plastic Day

The International Plastic Bag Free Day is celebrated every year on 3 July, to raise awareness about the issues of plastic pollution and its harmful impact on the natural environment. Plastic waste is dumped in landfills and proves harmful to marine creatures if it gets washed into oceans. More than 30 posters were presented by students. Dr.G.D Gupta sir presented his talk about the no use of plastic.
